

Vision Certification for NASA STD 8739

_____ (student's name) has met the vision requirements of NASA Standard 8739.

The following are the minimum vision requirements:

- Far vision: Snellen 20/50
- Near vision: Jaeger 1 at 14 inches (355.0mm), reduced Snellen 20/20 or equivalent approved testing methods.
- Color vision: Ability to distinguish red, green, blue and yellow colors as prescribed in Dvorine Charts, Ishihara plates, AO-HRR tests or equivalent approved testing methods. A practical test, using color-coded wires or electrical parts, is acceptable for color vision testing.
